

How-To:

CONNECT & TAKE APART THE HOSE AND MASK

CONNECTION

All hoses will fit to all masks. If they do not fit together, there is likely a connector from the mask still attached inside the end of the hose.

TAKING APART THE HOSE & MASK

The hose **should** pull off on an angle when taken apart.

The hose **should not** pull straight from the mask when taking apart.

Please call or text Tracey Heyworth RRT at (250) 306-6759 if you have any questions!
